# PLASTICS THAT OUTPERFORM.

**ENGINEERED FOR EXTREMES.  
TRUSTED FOR RESULTS.**

High-performance plastic components  
that reduce wear, eliminate corrosion  
and keep your operations moving.

**PRECISION  
BY DESIGN.**

**PERFORMANCE  
BY NATURE.**

**TRUSTED  
BY INDUSTRY.**

**BUILT FOR  
DEMANDING  
APPLICATIONS.**

## WHY INDUSTRY CHOOSES ENGINEERING PLASTICS

**WEIGHT REDUCTION**

**UP TO 80%**

**CORROSION RESISTANCE**

**PERMANENT**

**MAINTENANCE COSTS**

**SIGNIFICANTLY LOWER**

**SERVICE LIFE**

**EXTENDED**

**NOISE & VIBRATION**

**REDUCED**

### METAL

- ✗ Heavy & bulky
- ✗ Prone to corrosion
- ✗ High maintenance
- ✗ Noisy & vibrates
- ✗ Wears out faster
- ✗ Higher downtime
- ✗ Higher replacement cost

**VS**

### ENGINEERING PLASTICS

- ✓ Lightweight & strong
- ✓ Corrosion & chemical resistant
- ✓ Low & zero maintenance
- ✓ Quiet & vibration dampening
- ✓ High wear & impact resistance
- ✓ Less downtime
- ✓ Lower life cycle cost

## BUILT FOR EVERY INDUSTRY

### FOOD & BEVERAGE

Hygienic, safe  
& reliable.

### PHARMACEUTICAL

Cleanroom compatible  
& chemically inert.

### AUTOMATION

Precision parts for  
smooth motion.

### MATERIAL HANDLING

High wear resistance for  
demanding environments.

### CHEMICAL

Built to withstand aggressive  
chemicals & temperatures.

### POWER & ENERGY

Reliable performance  
under pressure.

## PRECISION COMPONENTS. SUPERIOR PERFORMANCE.

## OUR PROCESS. YOUR ASSURANCE.

**MATERIAL  
SELECTION**

Right material for  
the right application.

**PRECISION  
MACHINING**

Advanced CNC for  
tight tolerances.

**QUALITY  
INSPECTION**

Rigorous checks for  
consistent quality.

**SAFE  
PACKAGING**

Secure packaging for  
damage-free delivery.

**ON-TIME  
DELIVERY**

Reliable logistics.  
Every time.
